IMPORTANT INFORMATION BEFORE USE!

Start-up / restart procedure

Always perform the "Start-up and restart procedure" before using the height adjustable desk for the first time. This is to calibrate the lifting columns to the control box and to make sure that all the parts of the Linak electronics are in order.

Hold the button down for 15 seconds.

All the lifting columns shall make a slight up and down movement.

Do not release the button until the movement is completed.

Repeat the procedure one or more times if there is no movement.

NB!

In case of any malfunction, a restart procedure must be performed.
